

BITE FREE **TECHNOLOGIES**

mission: eliminate mosquitoes

YOU CAN BE A VICTIM OF

MOSQUITO

BITE

THAT CAN RESULT INTO
LIFE THREATENING AND FATAL DISEASES
LIKE

DENGUE
CHIKANGUNIYA
ZIKA
MALARIA

BITE FREE
TECHNOLOGIES

INTRODUCES

SUPER TRAP
TO ELIMINATE MOSQUITOES

FIRST TIME EVER IN INDIA AND THE ONLY EFFECTIVE AND SUSTAINABLE SOLUTION

for Indoor

Model:  Biogents

for Outdoor

Model: 

Covers an area upto 1 Acre

Model:  Biogents

Covers an area upto 8000 Sq. Ft.

BITE FREE
TECHNOLOGIES

ELIMINATES MOSQUITO
TO SAVE YOU FROM FATAL
AND LIFE THREATENING DISEASES
GLOBAL INNOVATION AND
MODERN SOLUTIONS

How its works

Bite Free works in two modes in eliminating large number of mosquitoes.

1 THE ATTRACTION MODE:

-  Releases hot carbon dioxide that mimics the breathing of a person.
-  Raises the body temperature (on the system) to about 40°C like a malarial patient.
-  Releases organic attractant (Octenol) that simulates human body odour.
-  The glowing diodes have insecticidal wavelength.

2 THE DISTRACTION MODE:

-  After a large number of mosquitoes is accumulated around the system, the fan turns on and sucks them into a trap.
-  The mosquitoes fall and collect into the trap of the aero bag. The trap can be checked to determine the efficiency of the system.
-  The mosquitoes around the system and up to 50 meters away even in their breeding grounds get attracted and killed. The system can eliminate up to 95% of the mosquitoes in the open area in 3 weeks of operation.

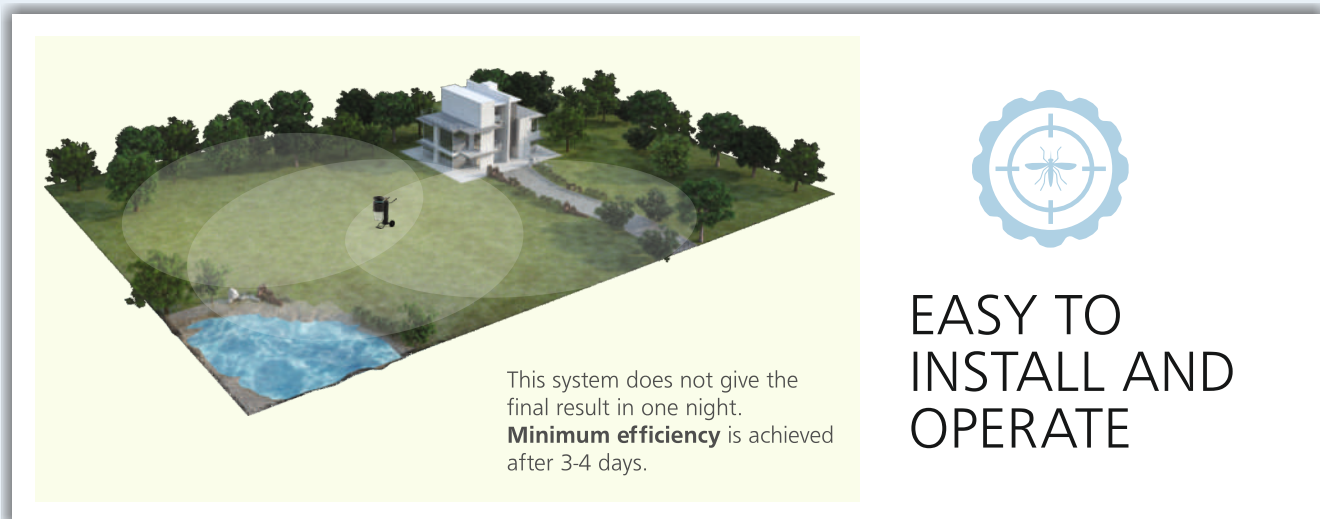

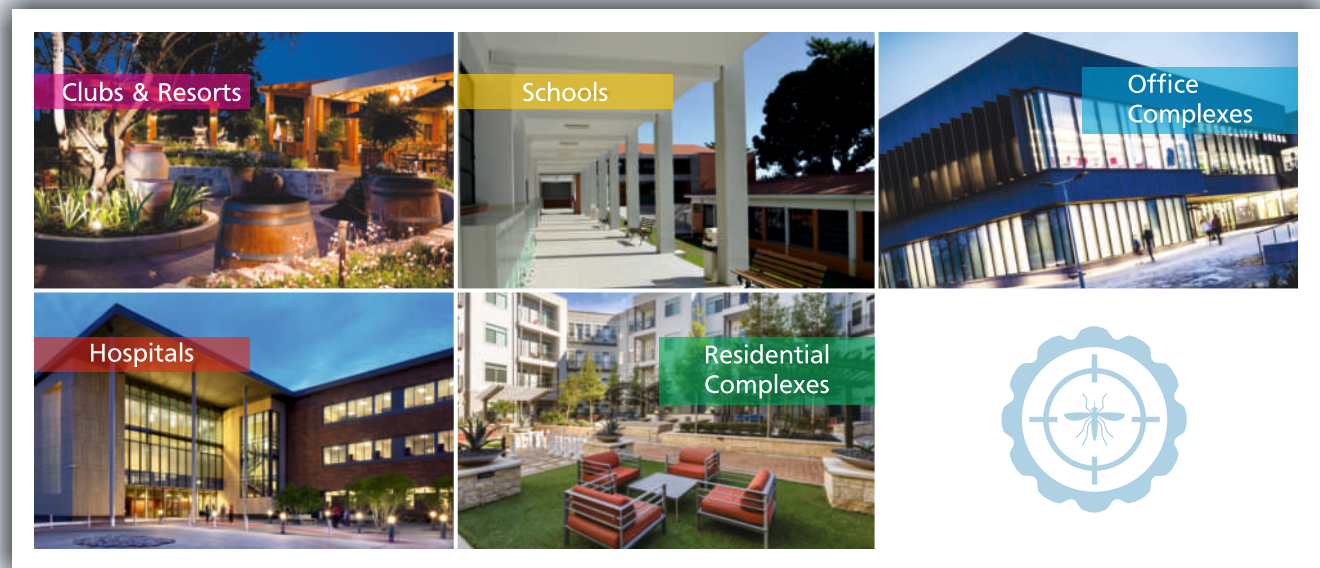

**TECHNOLOGY THAT IS ALREADY
ACCEPTED IN 23 COUNTRIES**

**Kids are more prone to mosquito bites.
Save them from life threatening diseases.
Install Bite Free Technology today! It is simple and effective!**

It is best suited for:

Hotels and Resorts | Garden Restaurants | Banquet Halls & Lawns | Farmhouses | Bungalows & Rest houses
IT parks | Industrial Zones | Corporate Offices | Manufacturing Facilities | Housing Societies & Townships
Construction Sites | Private & Common Parks | Airports | Hospitals | Golf Clubs | Sport Infra & Facilities
Public Health Department | Govt. Offices & Colonies | Beaches | Public Infrastructure Facilities
